PROFESSIONAL SUMMARY

Entry-level Data Analyst with an MS in Computer & Information Science (Cleveland State University, 2023) and 2+ years of experience in SQL-backed reporting, PostgreSQL workflows, operational dashboard development, and cross-functional stakeholder support. Proficient in Python (pandas, numpy, matplotlib), SQL/PostgreSQL, Excel, and React/JS for analysis and interactive data storytelling.

TECHNICAL SKILLS

Analytics & Data	Python (Pandas, NumPy, Matplotlib, SciPy), SQL, PostgreSQL, EDA, trend analysis, statistical modelling, KPI tracking, data cleaning, data validation
Visualisation	Excel (pivot tables, scenario models, conditional formatting), Google Sheets, Tableau, Power BI, React/JS interactive dashboards
Engineering	JavaScript, TypeScript, React.js, Next.js, Node.js, REST APIs, Git, GitHub, Docker, Linux, Jira, Drupal CMS
Professional	Requirements gathering, stakeholder communication, root-cause analysis, technical documentation, cross-functional collaboration, process improvement

PROFESSIONAL EXPERIENCE

Church Life Apps / BibleGo.org

Web Developer — Full-Stack Application Development

Oct 2023 – Jul 2024

Remote, USA

- Built and maintained production web applications (React.js, Next.js, Node.js, REST APIs) serving live digital-ministry users across multiple US church communities.
- Worked with PostgreSQL databases and SQL-backed workflows for data handling, operational reporting, and database-driven product features; developed queries and performed data quality checks.
- Partnered with product and programme stakeholders to gather requirements, analyse workflows, and translate business needs into technical implementations; maintained documentation for continuity across teams.
- Conducted systematic debugging, root-cause analysis, and release validation, improving application stability and reducing recurring operational failures.

Cleveland State University

Graduate Assistant — Academic Technology Systems Support

Sep 2022 – May 2023

Cleveland, OH, USA

- Designed SQL-backed operational dashboards and reports to monitor system usage trends, service performance, and issue patterns across university academic technology platforms.
- Translated faculty, staff, and administrative reporting needs into structured data outputs and workflow improvements; prepared decision-support summaries for technology leadership.

Cleveland State University

Web Designer and Research Specialist

Mar 2022 – Aug 2022

Cleveland, OH, USA

- Maintained Drupal-based academic web content and supported research digital initiatives through frontend updates, structured documentation, and stakeholder communication across university portals.

EDUCATION

Master of Science in Computer and Information Science

Cleveland State University, Cleveland, OH, USA

2023

Bachelor of Technology in Computer Science and Engineering

TKR College of Engineering and Technology, Jawaharlal Nehru Technological University, Hyderabad, India

2020
